

How we Work with Your Business

24 Hours Rule

We answer your inquiry within 24 hours. It is our promise to our clients since our practice started, and it has been well kept.

Tax Audit Guarantee Program

Our team at Australian Tax Experts protect you and your business in case of the ATO's tax audit. We are famous in this area for many years resolving so many complex tax issues with minimum financial damages.

Ongoing Tax Advice relevant to your business

We post our "Letter of Advice" for every new tax event relevant to your business and industry. This will give you to plan well in advance before the changes come in effect. Please see the sample letter enclosed.

Collaboration system with cloud technology

Using cloud technology based software, we will make your time minimized for your business's general accounting and taxation. No more hassles with your accountant with massive quantity of documents.

Strong Quality Control System

We implement a solid quality control system with quality control manuals in place for all staff members working based on the manual.

Secured document management with E-Signature

Your documents and our work are stored in safe client portal. You don't need to print out papers to sign our works. You will get a notification email from us when you have a new document to review and sign.

International market development support

With our sister firm "Centric Global", we support international traders finding genuine buyers around world. The firm also support financial due diligence, document preparation for international trade (legal contract, NCNDA etc.) foreign currency management and credit risk management.

Client Needs Focused Services
